Cosmopolis, WA 98537

To Whom It May Concern,

I am pleased to write this recommendation for Louis Rosche. I served as Vice Principal at Stevens Elementary in the Aberdeen School District and enjoyed working with Louis.

Louis is a stellar person with many strengths; I observed Louis making and maintaining positive relationships with *anyone* in the area. Louis has strong personal skills, enabling them to create sustainable, strong relationships. Their relationships model, guide, and encourage his students in good decision-making for themselves and their peers. Louis creates a climate of acceptance and empathy in this classroom, creating space for deep and meaningful conversations and enriching holistic development.

Louis exploits solid instructional strategies and tactics, evidenced by his students' growth; Louis' class had the highest scores of his grade level. They continue to employ small-group instructional strategies and individualized learning opportunities to ensure their students' growth and academic success.

Louis was also a Founding Member of our school's PBIS and AVID teams, helping other teachers in the building and district develop more advanced and nuanced strategic approaches to modern problems. On the PBIS team, Mr. Rosche's ideas and implementation strategies are practical and pragmatic for the building's students and staff. Mr. Rosche's service on both teams demonstrates his commitment to everyone's success.

Louis's dedication to their students is evident in their willingness to volunteer as Coaches for the Fifth and Sixth Grade Boys' Basketball teams. Two of Mr. Rosche's students, with Emotional Behavioral Disorders and IEPs, expressed an interest in being part of the team but could only participate with additional help. Louis volunteered their evenings for four months to ensure everyone won.

Louis' dedication to student success is unsurmountable, and beyond just being a valuable asset to any team, his commitment to learning, strong relationship skills, and critical thinking make him an ideal professional.

I strongly recommend Louis.

Please contact me for any questions.

Sincerely,
Ann Tracey
