Dear Reader,

I am pleased to recommend my colleague, Louis Rosche. I enjoyed working with Louis for three years. Louis is consistently enthusiastic and dedicated to teaching, interacting with his learners, and seeking advice from senior teachers like myself.

Louis has a very challenging class, with four students with behavioral Individualized Education Plans. I have witnessed Louis' sensitivity to these learners on multiple occasions and how they de-escalate potentially volatile situations. Louis has a true gift of calm, making every learner feel heard. Louis chose the responsibility of being a boys' basketball coach to support these individuals in their desire to play well with peers.

Louis is a contributing founder to our school's Positive Behavioral Interventions Support team, attending and contributing to helping implement schoolwide. They volunteered as a Math Olympiad Coach, supporting the district's initiatives and dynamic needs. This required designing, optimizing, developing, and managing schedules, stakeholder communications, and the direct education of scholars in logical concepts and problem-solving techniques to competition standards.

Louis has repeatedly committed to helping individuals succeed by equipping them with tools and their practical habits.

I write this recommendation without reservation; Louis is committed, passionate, and eager to grow professionally. Louis has been a pleasure to work with.

If you have any questions, please contact me.

Thank you and best regards,
Chris Collin
