To Whom It May Concern:

I have worked with Louis Rosche at Truman Middle School during my time as Assistant Principal for the past year. Louis Rosche works as a 6th grade science teacher at Truman. Rosche collaborates with the other Truman teachers in PLC and team meetings and communicates with students and families. On team, Roshe serves at the Multi-tiered System of Support (MTSS) coordinator documenting classroom support for students. Outside of the classroom, Rosche is a member of our building equity team.

Based upon our Lindbergh Board of Education policy GBLB, I am unable to provide a reference for anything except for the following:

- A description of the employee's job duties when employed.
- Additional district-sponsored committees, activities or duties the employee volunteered for or was designated to perform
- Honors and awards received by the employee.
- Factual information on work performance.

Please feel free to contact me directly (jwright@lindberghschools.ws) with any additional questions regarding Louis Rosche's time at Truman Middle School.

Sincerely,

Dr. Jenna Wright
Assistant Principal
Truman Middle School
