February 10, 2025

To Whom It May Concern:

I have supervised Louis Rosche at Truman Middle School since August of 2024 and he has taught at Truman since that time. Louis works as a 6th grade science teacher. In addition to teaching sixth grade students science on 6 green, he serves as a member of his grade level team and PLC. He collaborates with other Truman teachers in PLC and team meetings along with working with his team fulfilling his team role as MTSS coordinator. He has been diligent in ensuring the team utilizes data for making decisions. He has also volunteered to support a student club after school.

Based upon our Lindbergh Board of Education policy GBLB, I am unable to provide a reference for anything except for the following:

- A description of the employee's job duties when employed.
- Additional district-sponsored committees, activities or duties the employee volunteered for or was designated to perform
- Honors and awards received by the employee.
- Factual information on work performance.

Please feel free to contact me directly at (mstraatmann@lindberghschools.ws) or 314-729-2400 x7400 with any additional questions regarding Louis Rosche or his time as a teacher at Truman Middle School.

Sincerely,

Dr. Mike Straatmann
Principal
Truman Middle School
